Church in a  
secular society

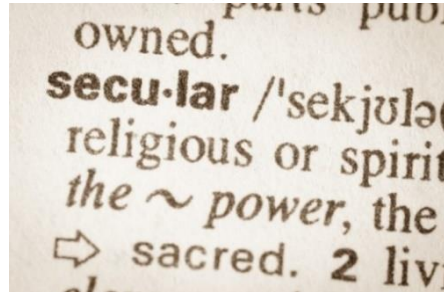

## 13. Oktober WORKSHOP SEMINAR

## 14. Oktober Celebration & Fellowship

BASLER MISSION  
DEUTSCHER ZWEIG E.V.

For many years now the Waldkirchengemeinde am Kräherwald in Stuttgart is hosting the Ghanaen Congregation (PCG) and Gedächtnis/Rosenberg-Kirchengemeinde is hosting the Cameroonien Congregation (PCC) in Stuttgart both significant for the region. Basel Mission Germany stands for a strong network connecting people and Churches for more than 200 years all over the world.

As a result of intense exchange with Congregations of other languages and origin (GASH) we realize the secular society to be our common resonating cavity. As we are coming together from different cultures, traditions and spiritualities as Christians we decided our differences to be an uncovered treasure. We are encouraged to encounter each other, to sit and to talk together, to share and to discuss our questions together. We want to give chance for input from the Coordinator of PCC Europe, Dr. Amos Chewachong, and director of studies Mission 21 in Basel, Dr. Detlev Lienau. Small groups will provide space to bring in your ideas, questions, challenges and visions. Be part of it and join us on Saturday for a one day workshop and on Sunday for celebrating and worship service.

We welcome you to be part of this unique opportunity of sharing and celebration. Come along and bring your family and friends.
